1. Overview

1.1 About Adore Twin Mobile Dialer for Android

Today is the time of Android VoIP, which enables the Android OS-based phone users to route their calls over the Internet. The Hybrid Mobile Dialer Apps like Android Twin Mobile Dialer simplifies the problem of using two separate apps to benefit the two different calling facilities. The Twin Mobile Dialer for Android phone functions a standalone platform to use the calling card facility in addition to the mobile VoIP calling.

To combine the much-needed facility of calling card dialing with the VoIP dialing, the Adore Infotech brings forth the latest mobile app, Adore Twin Mobile Dialer for Android Phone. This Hybrid Mobile Dialer app intended to ease out the hassle of using two different apps to avail the two different calling facilities. With the Adore Twin Mobile Dialer for Android phone, you will get the single platform to make use of calling card facility along with the mobile VoIP calling. Supported with GPRS, 3G/4G and WiFi, the Android apps like these get directly integrated with the address book of your Android phone and let you enjoy the facility of calling card dialing, thus eliminate the need to juggle your fingers with destination number.

The Adore Twin Mobile Dialer is an attractive mobile application for service providers to offer to their customers for easy, simple and hassle free calling experience for both calling card and mobile VoIP. The customization facility is also available for branding facility. You can put your own brand name or logo over the interface of this application to make it look personalized application of your company.

1.2 Sophisticated and Superior Features of Adore Twin Mobile Dialer

- Designed to provide mobile friendly calling experiences
- One platform for PINless calling card dialing & Mobile VoIP dialing

- Direct integration with mobile address book
