Adore Softswitch

Improved and Comprehensive Wholesale and Retail VoIP Switch

About Company

From small start-up to fully fledged company, Adore Infotech today dominates the VoIP Communication Business. Robust Performance Distinctive Design and to offer exhilarating and refined communication experience at competitive prices has been the talisman of our success. Riding ahead of any inflexion in the VoIP market, we will relentlessly strive to offer the best and innovative solution to our esteemed clients.

Who We Are?

Adore Infotech was established in 2004 despite being into the business since 2001. Backed with extensive experience and appetite for innovation and creativity, we soon emerged as a reckoned force in the market. Our pragmatic approach and

expertise in both client as well as server side VoIP telecom solutions helped us keep ahead of inflexion and competitors in the VoIP market. We have always strived to set high benchmarks in the terms of quality, product range and effectiveness. Over the years, enroute a successful journey we have earned the patronage of several clients-big and small alike. You can have a look at our clients' side to see how we have helped them with edge-breaking VoIP solutions.

What We Do

Well! We just help our clients with innovative and up-to-date VoIP and telecom solutions. Keeping ahead of ever changing market scenario and challenges, we are able to render unparalleled workmanship, superior products and exceptional customer support. Manned by a talent pool of professionals who hold extensive industry experience under their belts, we pioneered in providing turnkey VoIP and IP Telephony Solutions to our ever-expanding client base.

Adore Infotech's customized B2B telecommunication solutions are regularly asked by topnotch companies, enterprises, Next- Gen Service Providers (ITSPs), Wireless Internet Service Providers (WISPs), Telephone Companies (TELCOs) and Original Equipment Manufacturers (OEMs) around the globe. The intent is to remain cost-effective whilst offering fully interactive and bespoke telecommunication solutions. We keep ourselves updated with latest technology to ensure that we offer nothing but best to the client. After gaining a deep understanding of the client's requirement, we craft most sophisticated VoIP solutions backed by innovative communication technologies.

Our product range is widely acknowledged for its technical excellence, effectiveness and ability to deliver in all services such as PC- to- Phone, Phone- to- PC, PC-to-PC communications. These services further include acclaimed products like Adore Softphone, Adore Mobile Dialers, Adore Softswitch, Adore VoIP Billing and many more.

Our Values

Building long-term relationship and maintaining optimum quality has always been our foremost priority all these years. Our clients today trust us for being highly accountable, client-centric and sheer level of commitment. In addition, we constantly strive to keep ourselves updated with latest trends and technology in the market to provide innovative perspective and unique solutions to our esteemed clients. Above all, our honest approach, ethical business practices and transparent dealings has further sweetened our relations with the clients.

2. Softswitch Features & Facts

Adore SoftSwitch: Improved and Comprehensive Wholesale and Retail VoIP Switch

Keeping ahead of technology, Adore Infotech presents yet another innovative product to help businesses grow more profitably. Adore's SoftSwitch is a comprehensive SIP based software that effectively bridges Public Switched Telephone Network (PSTN) to Internet Networks, thereby, enabling better supervision of traffic and control over the connections. This software is fully compatible with latest Voice over Internet Protocol (VoIP) technology and internet enabled devices available in the market.

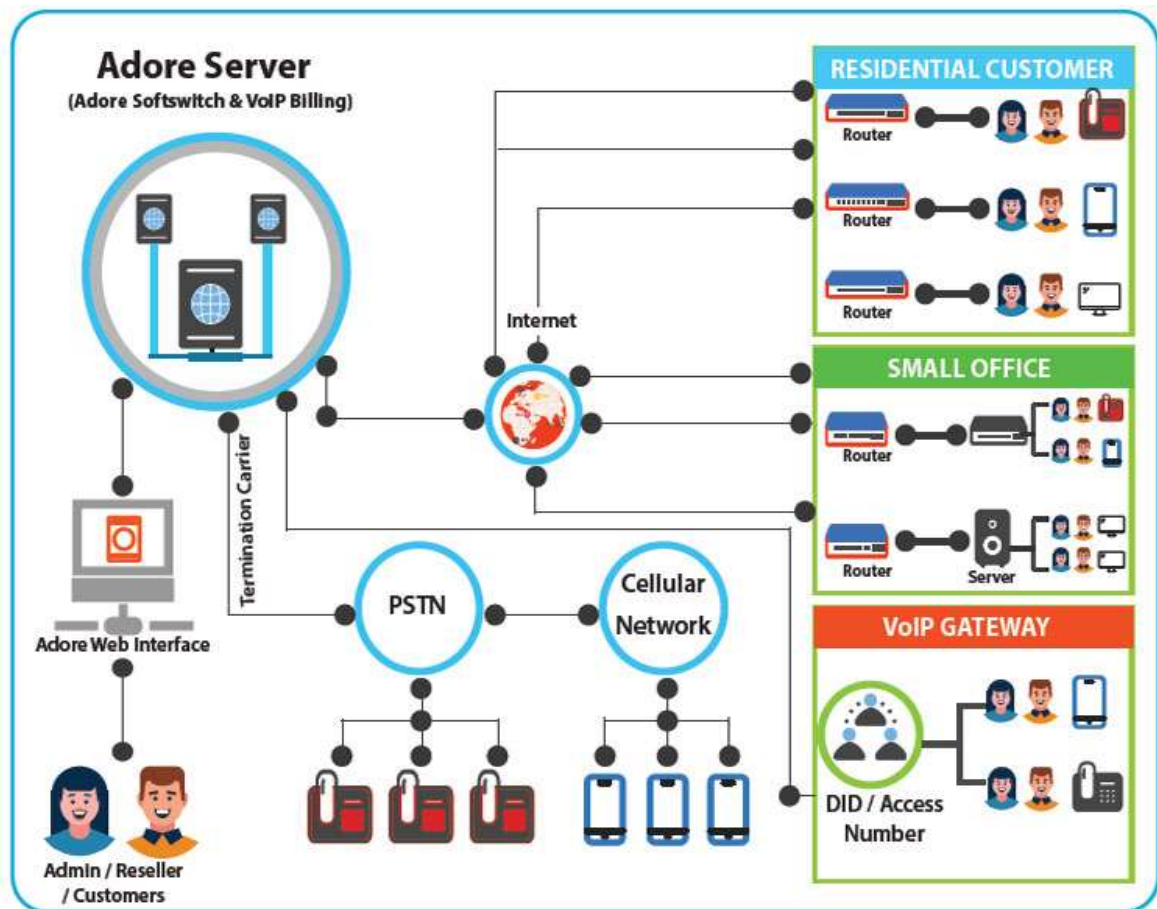

Adore Infotech understands the dynamic nature of Wholesale and Retail business. To provide a complete and advance solution that works as a media gateway as well as processes all types of packet protocol signals without any data loss, we developed Adore SoftSwitch. With this software enterprises and small businesses alike can manage VoIP networks like never before. Not only does it allow you to offer uninterrupted services to the consumer with an amazingly low primary outlay but also lowers down the operating cost tremendously. To make it more comprehensive and a one-stop-solution to all your needs, we have integrated it with VoIP Billing and Calling Card facility. Yes! Adore SoftSwitch is surely the most complete and advance solution of modern times

Included System of Softswitch :

- SoftSwitch : Wholesale & Retail VoIP Switch
- VoIP Billing : Billing, Database & Web Interface

- Calling Card System

The Softswitch is essentially a software-based gadget relevant with different sorts of information transfers system to give an effective passage to voice and data traffic along with conference calls. Our offered Softswitch is intended to deal with

the web based user-interfaces that thusly helps for getting advanced monitoring and system management applications.

Implementation:

3. System Requirements

System Requirements:

Adore Infotech recommends following Hardware and operating system specification

Hardware Requirements: Intel Core i5 Processor /8 Gb RAM/1 TB HDD

Software Requirements:

- Linux CENTOS 6.x (complete installation)
- Yum Server

Internet connection:

The use of a 1Gbit Ethernet card is a prerequisite for Adore system with good broadband Internet connection.

Pre-installation Considerations:

Here is some information that we think is worth knowing prior to installing the Adore Softswitch.

- Linux server should be on public IP
- SSL Certificate should be install on the Linux server

Carrier:

Carrier which supports SIP calls, g711, g723 and g729 codec.

Installation:

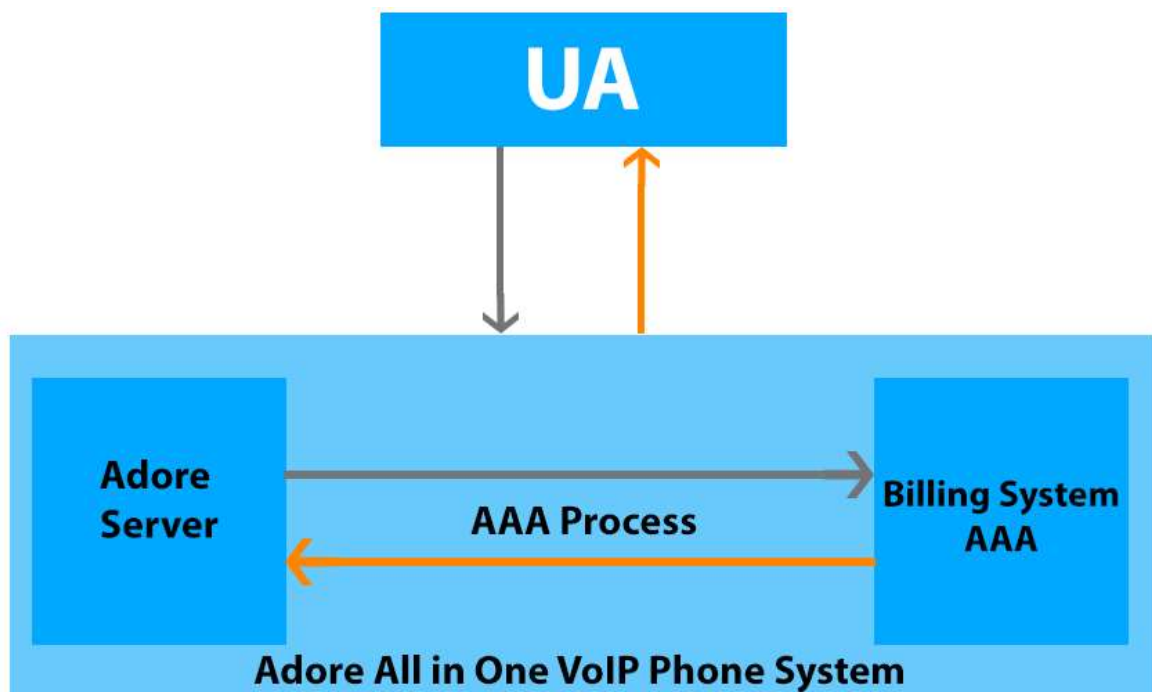

AdoreInfotech requires remote access of server for installation. The installation will be done by SSH connection on Linux server. Its installation requires internet facility and the time taken for its set up mainly depends on the nature and amount of customization to be done and the nature of service provider's infrastructure. Our competent and reliable force of engineers renders spectacular services in solving every bit of installation related problem.
